The Honorable Rosa DeLauro  
Ranking Member  
Committee on Appropriations  
1036 Longworth HOB  
Washington, DC 20515

Dear Chairman Cole and Ranking Member DeLauro,

I am requesting funding for the replacement of Ozone Generators in City of Cambridge in Fiscal Year 2026. The entity to receive funding for this project is the City of Cambridge, located at 795 Massachusetts Ave. Cambridge Massachusetts, 02139. The funding would be used for the replacement of the Ozone Generators that provide primary disinfection of the city's drinking water. The project is an appropriate use of taxpayer funds because this upgrade will improve the finished water quality for all users of Cambridge water and ensure the City maintains full regulatory compliance with all Federal and State Drinking Water Standards.

The project has a federal nexus because the funding provided is for purposes described in Section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Ayanna Pressley  
Member of Congress
